## AI-ASSISTED WITNESS INTERVIEWS

# CAPTURE RELIABLE WITNESS STATEMENTS WITHOUT SLOWING DOWN THE SCENE

On-scene interviews often mean balancing speed, safety, and accuracy. TRULEO's AI Assisted Interviews make it possible to capture reliable statements without putting officers or witnesses at risk.
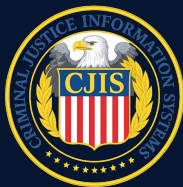

Officers can either:

- Ask the questions directly and record responses on their phone, or
- Provide a secure device for the witness to call or text with AI handling the questions.

Both methods ensure witnesses feel safe while key details are documented. AI transcribes every response, prioritizes important facts, and delivers a clean, structured summary that can be pulled directly into the report narrative.

- Protect officer and witness safety
- Capture critical details in real time
- Seamless integration with report narratives
