

TRULEO Grant Writing Agent

Find the money. Win the money. **Keep the money.**

TRULEO's AI agents research live funding sources, match grants to your agency, draft the application, help you submit it, and keep you compliant after award — a dedicated grant assistant on your desk.

✓ CJIS Compliant

✓ SOC 2 Certified

✓ 100% Confidential — Never Trained On

✓ Built for Law Enforcement

The Full Grant Lifecycle

- 1 • Match**
Ranked grants that fit your agency and project — federal, state, and private.
- 2 • Build**
Narratives, budgets, timelines, and presentations drafted to the solicitation.
- 3 • Submit**
The agent works through submission portals and flags missing or misformatted items.
- 4 • Administer**
Procurement packages, compliance checklists, and progress reports after award.

Where others stop, TRULEO keeps going.

Competitors rarely handle post-award administration: the reporting, procurement, and compliance that keep the funding.

How It Works

MATCH

- 1** Enter your **agency profile** once, then name a project: "drones," "LPRs," "body-worn cameras."
- 2** The AI agent works in its **own secure virtual desktop**, clicking through Grants.gov, COPS, BJA, FEMA, and state sites.
- 3** Step away. Return to **sourced matches** with deadlines, award size, match, and how to apply.

BUILD / SUBMIT

- 4** **Draft the application package**, then have the agent work through the submission portal.

ADMINISTER

- 5** Keep **creating artifacts** as you administer the grant, pulling data instantly from your **connected systems**.

Grant Matches — Topic: Drones

Springfield PD · Municipal PD · IL

RESEARCH COMPLETE
~10 min · sources cited

Summary: 1 strong fit, 2 possible fits, 1 long shot. **Best next step:** confirm SAM.gov / JustGrants readiness and pursue a JAG-funded UAS purchase.

Byrne Justice Assistance Grant (JAG) — Local

Open · Direct via BJA · \$96,413 local allocation · No match

STRONG

State Homeland Security Program — via State SAA

Pass-through · Allowable with prevention framing

POSSIBLE

COPS Technology & Equipment Program

Congressionally directed · Community Project request

LONG SHOT

RESEARCH
