

Platform Overview

Your Agency Is Spread Thin. Hire Digital Labor,
100 FTEs for less than the price of 1 FTE.

TRULEO connects to the systems you already own and helps get the work done.

Increases Officer Morale

"I am completely amazed at how useful TRULEO is! I have shared my experience with other LEOs, and they are now using the system as well."

— Lieutenant H. Rouillard
(Bureau of Indian Affairs, DC)

Increases Clearance Rates

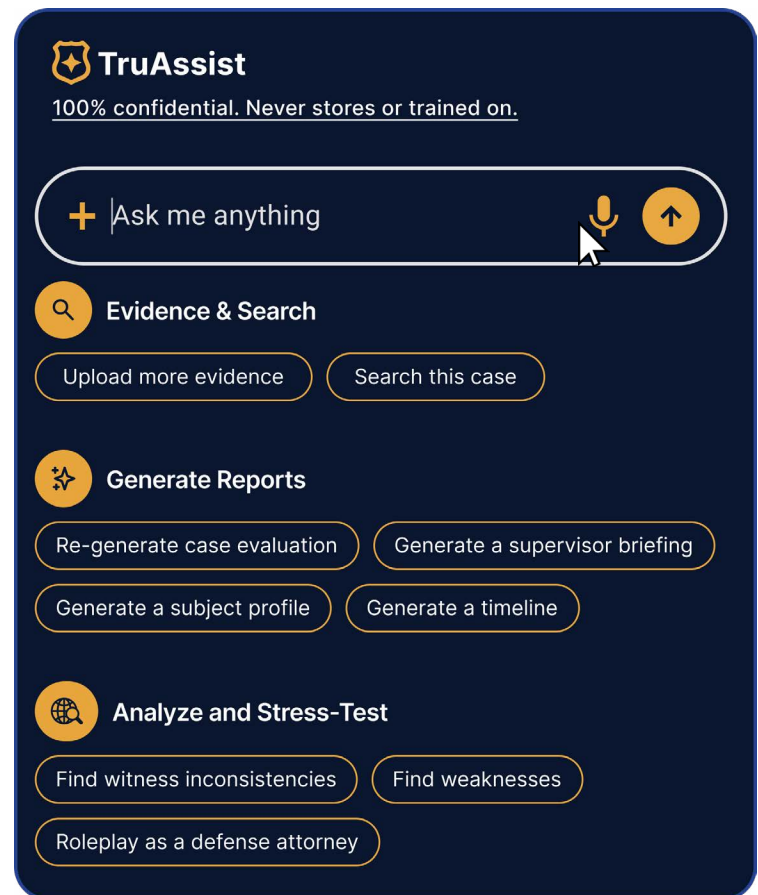

"Since using TRULEO, I have significantly improved my efficiency and case management. It has provided insights that led me to reopen closed cases."

— Detective S. Sanders
(Spartanburg Police Department, SC)

Increases Compliance

"I upload my BWC footage, and TRULEO helps with writing narratives, search warrants, and my investigations. It's a very valuable system for law enforcement."

— Detective C. Pegram
(Vance County SO, NC)

Your RMS manages the case. TRULEO helps solve it.

FBI CJIS

compliant and
independently audited

1,000+

agencies TRULEO
has worked with

SOC 2

Type II compliant

Quantico

taught in the FBI National
Academy curriculum

No Facial

recognition. TRULEO
stores no video.

Supported By FBINAA Graduates Everywhere

TRULEO is the investigator who **never sleeps.**

Meet The Analyst — the investigative assistant every detective gets the moment they log in. It does real casework alongside your investigators. Not passive summaries. Digital labor.

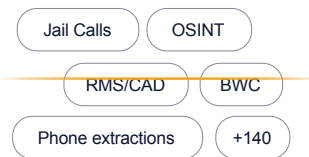

Retrieves

Pulls records from RMS, CAD, BWC, phones, and jail calls

Connects

Links people, numbers, vehicles, and cases

Drafts

Writes case summaries, reports, and documents

Briefing - 0600

Generated in 20 seconds

Department template used

Prioritizes

Scores solvability so detectives work what closes

Case Intelligence

- **Solvability Score.** Work the cases that will close.
- **Cell phone analysis.** Every contact linked to every case.
- **Cold case digitization.** Decades-old leads, back in play.
- **Case hardening.** Stronger cases reach the prosecutor.

Jail Call Intelligence

Inmates talk.

Almost no one is listening.

Every call transcribed and analyzed automatically.

Suggested next steps

- Resolve Jones's alibi
Solvability 6/10 → 7/10
Known Suspect Information
- Find physical evidence
Solvability 6/10 → 7-8/10
Video & Physical Evidence
- Trace stolen property
Solvability 6/10 → 7-8/10
Crime Intelligence Connections

"TRULEO solves cases fast."

— ARIZONA DEPARTMENT OF PUBLIC SAFETY

Before

After

Get Your Time Back.

Upload your data to TRULEO. Tell it what you need built.

For Patrol

Officers spend hours of every shift on paperwork instead of patrol.

- **Report writing.** Reports in minutes, not hours.
- **Policy lookups.** Instant answers on policy, statute, and procedure, hands-free in the field. Conversations are saved for 12 hours, then automatically deleted.
- **Field notes and dictation.** Capture details by voice at the scene. They flow straight into the report.

Other - General Report

Template: Default

Digital Notepad

Narrative

Download Artifacts

Enter your original report content here by typing your notes or dictate to TruAssist on the right.

Add File

Add BWC Video Insights

For Command

Chiefs are asked to justify every dollar and every deployment, usually without an analyst to pull the numbers.

- **Shift summaries,** daily trend briefings, and performance and compliance tracking.
- **Grant-Writing Agent.** The full grant lifecycle in one place: monitoring and matching, building (including budget support), submission, and post-award administration. Found money becomes funded programs.
- **Governance Agent.** Independent compliance reporting drawn directly from system audit logs, covering ALPR usage, K-9 training and certification records, application usage, and gaps in AI report-writing policy.
- **Decision-ready answers.** Ask a plain-English question about your own department and get the answer from your own data, not a vendor dashboard facility's existing phone provider.

ALPR Governance Audit

Report Period: Oct1st - Oct 31st

Find problems before the news does.

ALPR audits across Flock and Axon. Every search checked against your RMS: the case exists, the vehicle is tied to it, the need is documented.

Independent, not self-graded. The audit is conducted by TRULEO, not by the vendor being audited.

Council-ready reports. Findings you can put in front of elected officials and the public.

Security & Privacy

- SOC 2 Type II compliant; FBI CJIS compliant and independently audited
- Hosted in AWS GovCloud, with MFA, SSO, and role-based access control
- Automatic PII redaction
- TRULEO has never had a data breach
- Customer data is never used to train shared AI models
- No facial recognition. TRULEO stores no video.
- TRULEO rejects surveillance use cases into the report.

Connects to What You Already Own

- **No rip-and-replace, no API fees.** TRULEO works with your RMS, CAD, BWC, and jail phones as they are.
- **Same-day setup** for most users.

No budget line?

TRULEO can often be funded through federal technology grants, and the Grant-Writing Agent helps you find and win them.

How to start

1. Free 60 day trial

Your officers and detectives use TRULEO on real work, on your data.

2. Pilot

Connect your systems and measure time saved and leads surfaced.

3. Agency license

Roll out to patrol, investigations, command, and corrections.
